Deo-Mint

The latest technology
in odour control

Deo-Mint deodorant targets key types of odour, by completely eliminating it, rather than just masking it.

Complete odour eliminator

Deo-Mint is the latest technology in odour control along with a unique fragrance design system. The special molecular bullets specifically target key odours, working **quickly and effectively**.

Refreshing fragrance

Available in a light, **refreshing, spearmint** fragrance, which can be sprayed into the pouch and around the room during pouch changes.

Pump-action spray

Environmentally friendly pump-action spray, which means you get **100% active liquid** in every bottle, with no waste. When spraying, Deo-Mint is quiet and discreet compared to aerosols.

Availability

Available on prescription in a handy 50ml bottle. The perfect size for popping in your bag or pocket.

"I have been using the Deo-Mint for some time now and it is the best product for eliminating odour that I have tried in the past 8 years."

Deo-Mint deodorant eliminates odour, leaving a refreshing, spearmint fragrance, providing you with confidence and peace of mind for the day ahead.
